## Photofinishing (full uncut rolls)

The Frontier Digital Lab has really added a new dimension to Photofinishing. Many of the features listed below were never possible before. But a fancy digital printer alone does not automatically make good prints, it takes skilled technicians, a good eye for color, and a commitment to provide a top quality product. Here at McGreevy ProLab & ProPress our Photofinishing service is designed to meet the needs and expectations of the professional photographer. We never operate our printers in automatic mode. Instead every frame is evaluated for proper color balance and density. The film is cut by hand and sleeved in professional PrintFile® pages. Prints from 35mm negative film include a 4x6 index print.

### From uncut full rolls - at time of processing

|       | 35mm Negative<br>Color or B&W |         | 120 Negative/Trans<br>Color or B&W | 35mm Slide |          |
|-------|-------------------------------|---------|------------------------------------|------------|----------|
|       | 4x6                           | 5x7     | 4x5 / 4x6 / 5x5 *                  | 4x6        | 5x7      |
| 1'st  | .40 ea.                       | .85 ea. | 1.05 ea.                           | 1.05 ea.   | 1.50 ea. |
| Addl. | .27 ea.                       | .60 ea. | .75 ea.                            | .75 ea.    | 1.00 ea. |

### \* Medium Format Proof Printing Sizes

6x4.5 film = 4x5 print  
 6x7 film = 4x5 print  
 6x6 film = 5x5 print  
 6x9 film = 4x6 print

Print prices from above calculated as full rolls with 50% film processing discount

| Film Processing & 4X6 Prints Combined |                               |                               |            |            |
